Outstanding functions of SalesEnvy

You can get many advantages when using SalesEnvy. You will feel so absolutely satisfied in SalesEnvy- a great product after reading it's outstanding function, for example, Unlimited call, Personalized emails, Record all calls, Send 1-click meeting invites (Schedule Meeting), Have dynamic call scripts, Manage the entire sales pipeline, Send automated/recorded messages, Send follow-up,... Here is more detail about outstanding functions of this software.

- Integrated calling with Skype

With no limitation of time, the number of calls and contract that you can manage, you can call just by \$2.99 per month. SalesEnvy leverages Skype the low-cost calling plans makes it become the cheapest VoIP calling service.

- Automatically Dial:

SaleEnvy will already help you save your time with automatic dialing ability. It allows sales reps to be able to not skip a beat. And after the previous call ended, you can call the next phone number on your list automatically

- Call Recording:

[SalesEnvy](#) can record any call to be reviewed by yourself or a manager at a later time. Or you can understand that recording every call that is posted in SalesEnvy for quality assurance, training, and to references at a later date.

With it, the managers can manage all calls of their staffs.

- Personalized Email

Did you know that when you create a timetable and confirm the next meeting on the phone, that confirmation rates are close to 100%?

- Pre-Recorded Messages:

It queues up a pre-recorded message that auto-plays upon an answered call or leaves as a voicemail for you. Without tap or touch, the receiver can hear the voice message. Is it convenient? Of course.

- Schedule Meetings:

It is very easy for you to schedule the meeting with existing and potential customers, team member directly from inside SalesEnvy.

- [Sales](#) Script:

When using SalesEnvy, you can import dynamic sales scripts. So your sales team will utilize when on a call for quality assurance and to maximize conversions.

- Connect to other VoIP Provider

When using Session Initiation Protocol, you can connect to any other VoIP Provider. It's sound great.

- Sales Pipeline Management:

You can see the entire sales process from prospect to customer and see at-a-glance stats on your overall sales team performance and metrics. You also can easily manage all contacts into a clear and defined customized sales funnel. Visually see where every contact is in your funnel and what action or step is required.

Who is the Creator of SalesEnvy?

Do you know Mark Thompson? I am sure that many of you know him. He is also the author of a lot of products in the marketing field. So you don't need to worry when using SalesEnvy – one product of Mark Thompson.
